

SAP-310: Outside Fitting Flange Protectors

The original. Easy to install full flange-face protection. This precise fitting wrap-around protector offers easier handling than any other product in the industry. Its style is ideal for coated and conical bore flanges

Description

Real Protection's outside fitting flange protectors are made of low density polyethylene(LD-PE)These caps are easy to fit and to remove, with yellow as the standard color. Just simply push over the flange diameter. This unique style automiatically slips over the flange to protect the face as well as the sides.

Far easier to remove than any other full-face, wrap-around protector on the market. Its unique design allows coated and conical bore flanges to be easily protected.

From DN 10 - DN 300 and .1/2" - 10." acc. to EN 12351, DIN 3443-B, ANSI B 16,5 and .BASF WN 14-150 Form B.
